IRIS GARDENS

SUMMER 1941

SPRING 1942

FOREWARD

Iris lovers are becoming more critical each year and are selecting finer Iris. In this catalogue is assembled the best of the less expensive varieties. You will find good iris at various prices to meet your needs and pocket book. Prices have reached a low level, and due to increase of labor costs, they will rise again. So discard your obsolete varieties and fill your garden with the lovely iris now offered at very low prices.

We are growing less than formerly, but are giving better care so that you receive fine rhizomes, that are hardy in all conditions.

Garden Clubs are always welcome and we endeavor to make their visit pleasant and instructive, for after all, more knowledge can be gained by seeing plants in bloom, than by merely reading about them.

We also maintain exhibition plantings of fine Hemerocallis, Narcissi, Peonies and Poppies. Arrange to see them at blooming time. The most popular peonies are included in this catalogue, and separate descriptive lists of the others will be sent on request.
